Project Management Training Info-Pack

Course Objective This project management course is designed to provide a comprehensive foundation in project management principles and best practices. By the end of this course, participants will:

- Gain a deep understanding of the project management landscape, including essential domains and tasks.
- Develop practical skills necessary to manage projects effectively across various industries.
- Enhance confidence through hands-on simulations and practical scenarios.
- Be equipped with the knowledge, skills, and confidence to excel as a project management professional.

Who Should Attend this training

Core Project Management Aspirants:

- Entry-Level Professionals: Those starting their careers and seeking foundational knowledge in project management.
- Experienced Project Managers: Individuals seeking to solidify their skills and gain global expertise.
- Team Leaders, Product Managers, Program Managers and Portfolio Managers: Professionals aiming to deepen their knowledge of project management.
- Experienced Professionals Switching Careers: Individuals from other fields considering a career change into project management.

Cross-Functional Roles:

- Operations Managers: Interested in improving efficiency and managing cross-departmental projects effectively.
- HR Professionals: Looking to manage recruitment, training, or organizational development projects using structured approaches.
- Finance and Budget Analysts: Wanting to better manage project budgeting and financial planning.
- IT Professionals: Software developers, system analysts, and IT support teams looking to take on leadership roles in project-based work.

Industry-Specific Professionals:

- Construction Managers and Engineers: Aspiring to streamline projects in their field with enhanced planning and execution skills.
- Healthcare Administrators: Managing healthcare initiatives, new technology implementation, or departmental restructuring.
- Educators and Academic Administrators: Applying project management principles to educational reforms, curriculum design, or event organization.
- Marketing and Advertising Professionals: Coordinating campaigns, product launches, or market research projects.

Aspiring Leaders and Managers:

- Entrepreneurs and Startups Founders: Learning how to structure and manage business initiatives effectively.
- Consultants: Wishing to enhance their service offerings with project management insights.

Broader Enthusiasts:

- Freelancers and Independent Contractors: Keen on managing their workflows and client projects efficiently.
- Nonprofit and NGO Staff: Looking to improve the execution of community projects, fundraising campaigns, or event management.
- Students and Fresh Graduates: Aspiring to build a strong skillset for entering the workforce with a competitive edge.

General Interest Groups:

- Individuals Exploring Project Management Principles: Those curious about applying these principles to personal or professional tasks.
- Hobbyists and Organizers: Anyone managing complex events, community groups, or side projects.
- Transitioning Military Personnel: Seeking civilian careers where project management expertise is highly valued.

Project Management Course Curriculum Key Highlights

Aligned with Global Standards

- Course Alignment: The curriculum aligns with recognized project management standards and best practices for a structured learning experience.

Focused Course Structure

- Comprehensive Coverage: The course covers essential project management domains, such as People, Process, and Business Environment.
- Domain-Specific Tasks: The curriculum breaks down into relevant tasks to build competencies in key project management areas.

Practical Scenarios and Simulations

- Realistic Practice: Includes scenarios and case studies similar in complexity to real-world project challenges.
- Course as a diagnostic tool: Assessments help identify areas where participants may need to focus.

Teaching Methodology and Tools Based on a Blended Learning Approach

- Interactive Learning: Includes group discussions, case studies, and other interactive methods to keep learning engaging.
- Power-Point Presentation with comprehensive notes

Coaching and Mentoring

- One-on-One or Group Coaching: Access to online one-on-one or group coaching sessions post-training. (available upon request)
- Follow-Up Sessions: Q&A sessions with the course instructor for additional support. (available upon request)

Why Take This Course?

- Gain a Competitive Edge: Project management skills are highly valued and can set you apart in the job market.
- Enhance Your Skills: Learn best practices that can be applied immediately to ongoing projects.
- Career Advancement: These skills can open doors to higher salary prospects and advanced career opportunities.
- Network with Peers: Connect with other professionals and expand your professional network.
- Expert Instruction: Learn from an experienced project management professional with extensive industry knowledge.

Why Choose Switzerland as the Venue for Training?

- Central Location: Situated in the heart of Europe, Switzerland is easily accessible.
- High Standards: Renowned for quality education and professional development.
- Beautiful Scenery: Breathtaking landscapes and a serene environment conducive to learning.
- Safe and Hospitable: Switzerland offers a safe and welcoming environment.
- Cultural and Leisure Opportunities: Explore Swiss culture, cuisine, and attractions during your stay.

Benefits of This Course in a Nutshell

- Comprehensive Coverage: Detailed coverage of all project management domains.
- 35 Contact Hours: This course fulfills the requirement of formal project management education.
- Realistic Practice: Engaging scenarios to prepare you for real project challenges.
- Interactive Learning: Group discussions, case studies, and hands-on activities.
- Training Materials: Comprehensive Power-Point slides
- Post-Course Support: Continued guidance up to your specified goal date (available upon request)
- Coaching and Mentoring: Personalized coaching sessions for additional support. (available upon request)
- Flexible Learning: Blended approach allowing participants to learn at their own pace.
- Participation Certificate: A certificate of participation upon course completion.

4-Day Project Management Training Detailed Curriculum

Course Schedule

- Start Time: 09:00 AM (Monday-Thursday)
- End Time: 16:30 PM (Monday-Thursday)
- Lunch Break: 12:30 PM - 13:30 PM
- Short Breaks: Two 15-minute breaks each day

Day 1: Project Initiation & Planning Process Groups

Morning Session (09:00 – 12:30)

Learning Outcomes

By the end of this session, participants will be able to:

- Explain the fundamental concepts of project management.
- Differentiate between various project development approaches and roles.
- Describe the project life cycle, process groups, and domains.
- Recognize common project pitfalls and identify key success factors.

Agenda

09:00 – 09:30 | Welcome & Icebreaker

- Introductions and expectations
- Activity: *Sharing project implementation challenges*

09:30 – 10:30 | Module 1: Project Management

Fundamentals

- Core concepts of project management
- Overview of development approaches (traditional, agile, hybrid)
- Understanding project roles and managing change

10:30 – 10:45 | Break

10:45 – 11:45 | Module 2: Project Life Cycle & Process Groups

- Project life cycle phases
- Key process groups and their interactions
- Domains of project management

11:45 – 12:30 | Interactive Case Study & Discussion

- Group activity: Identifying common project pitfalls
- Analyzing success factors in real-world project scenarios
- Sharing insights and lessons learned

Day 1: Project Initiation & Planning Process Groups

Afternoon Session (13:30 – 16:30)

Learning Outcomes

By the end of this session, participants will be able to:

- Develop a project charter by defining objectives, deliverables, and constraints.
- Identify and document stakeholders using a stakeholder register.
- Break down project deliverables into manageable components using a Work Breakdown Structure (WBS).
- Apply templates and tools to support charter, stakeholder, and WBS development.

Agenda

13:30 – 14:15 | Module 3: Project Charter Development (Integration Management)

- Purpose and importance of the project charter
- Defining objectives, deliverables, and constraints
- Tools: *Project Charter Template*
- **Group Exercise:** Drafting a project charter for a real or simulated project

14:15 – 14:45 | Module 4: Identifying Stakeholders (Stakeholder Management)

- Stakeholder analysis: roles, interests, and influence
- Creating and maintaining a stakeholder register
- Tools: *Stakeholder Register Template*

14:45 – 15:00 | Break

15:00 – 15:45 | Module 5: Developing the Project Management Plan (Integration Management)

- Key components of a project management plan
- Aligning the plan with organizational objectives
- Integration across knowledge areas

15:45 – 16:30 | Module 6: Creating the Work Breakdown Structure (Scope Management)

- Breaking down deliverables into manageable tasks
- Tools: *WBS Template*
- **Group Exercise:** Develop a WBS for a selected project
- Wrap-up discussion and key takeaways

Day 2: Project Planning Process Group (Continued) Morning Session (09:00 – 12:30)

Learning Outcomes

By the end of this session, participants will be able to:

- Develop a detailed project schedule using tools such as Gantt charts and Kanban boards.
- Apply methods for estimating project costs and preparing a realistic budget.
- Define and plan for project quality standards and key quality metrics.
- Collaboratively address schedule, cost, and quality challenges in project planning.

Agenda

09:00 – 09:15 | Recap & Introduction

- Review of Day 1 (Charter, Stakeholders, WBS)
- Today's focus: **Schedule, Cost, and Quality Management**

09:15 – 10:15 | Module 7: Planning and Developing the Project Schedule (Schedule Management)

- Defining activities from the WBS
- Estimating durations and sequencing tasks
- Tools & techniques: *Gantt Charts, Kanban Boards, Critical Path Method (CPM)*

Hands-on Activity: Build a project schedule with a Gantt chart

10:15 – 10:30 | Break

10:30 – 11:15 | Module 8: Planning Costs and Determining the Budget (Cost Management)

- Cost estimation techniques: analogous, parametric, bottom-up
- Earned Value Management and Earned Value Management metrics
- Tools: *EVM*

11:15 – 12:00 | Module 9: Planning Quality (Quality Management)

- Setting quality objectives and standards
- Identifying quality metrics and control methods
- Tools: *Quality Checklists, Pareto Analysis*
- **Exercise:** Use Pareto Analysis to prioritize the “vital few” causes that create most of the problems (the 80/20 rule).

12:00 – 12:30 | Integrated Group Discussion & Wrap-Up

- Discuss challenges in balancing **schedule, cost, and quality trade-offs**
- Explore real-world scenarios where prioritizing one impacted the others
- Share strategies for achieving balance among the three constraints

Day 2: Project Planning Process Group (Continued) Afternoon Session (13:30 – 16:30)

Learning Outcomes

By the end of this session, participants will be able to:

- Develop a resource management plan covering human, financial, and material resources.
- Identify, assess, and plan responses to project risks using structured techniques.
- Create an effective communication management plan tailored to stakeholder needs.
- Apply practical tools such as a Risk Register and Communication Plan Template in project scenarios.

Agenda

13:30 – 14:15 | Module 10: Planning Resource Management (Resource Management)

- Identifying and documenting roles and responsibilities
- Resource requirements: human, financial, and material
- Tools: *Resource Breakdown Structure (RBS)*, *Responsibility Assignment Matrix (RAM)*, *Resource Allocation Matrix*
- **Mini-Activity:** Build a simple RAM for a sample project

14:15 – 15:00 | Module 11: Planning Risk Management (Risk Management)

- Understanding risk categories (technical, external, organizational, project management)
- Techniques for identifying risks: brainstorming, checklists, expert judgment
- Tools: *Risk Register Template*, *Probability & Impact Matrix*
- **Group Exercise:** Create a Risk Register — identify and assess potential risks for a selected project

15:00 – 15:15 | Break

15:15 – 16:00 | Module 12: Planning Communications Management (Communications Management)

- Importance of effective communication in projects
- Identifying stakeholder information needs
- Communication methods and frequency: reports, meetings, dashboards
- Tools: *Communication Plan Template*
- **Role-play Activity:** Simulating stakeholder communication scenarios (e.g., reporting progress, handling conflict, delivering bad news)

16:00 – 16:30 | Integrated Reflection & Wrap-Up

- Discuss lessons learned about balancing **resources, risks, and communication**
- Key takeaways for successful project planning
- Q&A and preparation for Day 3 (Execution & Monitoring & Controlling)

Day 3: Project Planning (Continued) & Executing Process Group Morning Session (09:00 – 12:30)

Learning Outcomes

By the end of this session, participants will be able to:

- Explain different types of procurement contracts and select appropriate approaches for projects.
- Identify, analyze, and map stakeholders based on power, interest, and influence.
- Create a Stakeholder Engagement Plan to manage relationships effectively.
- Understand how to direct and manage project work, knowledge, quality, team performance, communications, and risk responses during project execution.

Agenda

09:00 – 09:15 | Recap & Introduction

- Review of Day 2 key learnings (Schedule, Cost, Quality, Risk, Resources, Communications)
- Outline of the transition from Planning to Executing process group

09:15 – 10:00 | Module 13: Plan Procurement Management (Procurement Management)

- Procurement processes and decision points
- Contract types: fixed-price, cost-reimbursable, time & materials
- Supplier selection and procurement documents
- Tools: *Procurement Management Plan Template*

10:00 – 10:45 | Module 14: Plan Stakeholder Engagement (Stakeholder Management)

- Techniques for stakeholder identification and analysis
- Power/Interest Grid and Stakeholder Engagement Assessment Matrix
- Tools: *Stakeholder Analysis & Engagement Plan Template*
- **Group Activity:** Map stakeholders for a project and develop engagement strategies

10:45 – 11:00 | Break

11:00 – 12:15 | Module 15: Executing Process Group

- Direct and manage project work: implementing approved changes
- Managing project knowledge: lessons learned and knowledge sharing
- Leading and developing the project team
- Managing communications effectively
- Implementing risk responses during execution
- Case insights: Linking planning outputs (charter, WBS, risk register) to execution success

12:15 – 12:30 | Reflection & Q&A

- Discuss challenges in moving from planning to execution
- Key takeaways from planning and execution integration
- Preview of Day 3 Afternoon Session

Day 3: Monitoring & Controlling Process Group Afternoon Session (13:30 – 16:30)

Learning Outcomes

By the end of this session, participants will be able to:

- Define and apply key performance indicators (KPIs) to monitor project progress.
- Conduct integrated change control to manage project changes effectively.
- Monitor and control project scope, schedule, costs, quality, resources, procurements, communications, and stakeholder engagement.
Evaluate project performance and identify improvement opportunities.
- Collaboratively analyze monitoring and control reports to propose corrective and preventive actions.

Agenda

13:30 – 13:45 | Introduction to Monitoring & Controlling

- Role of the Monitoring & Controlling Process Group
- Linking Monitoring & Controlling with Planning and Executing

13:45 – 14:30 | Module 16: Monitor and Control Project Work (Integration Management)

- Establishing performance measurement baselines
- Key performance indicators (KPIs) and Earned Value Management (EVM) basics
- Tracking progress and reporting performance
- Tools: *Monitoring & Reporting Plan Template, EVM charts*

14:30 – 15:00 | Module 17: Perform Integrated Change Control

- Change control process and governance
- Identifying and preventing scope creep
- Change control board (CCB) and decision-making process
- **Group Discussion:** Common causes of scope creep and strategies to manage them

15:00 – 15:15 | Break

15:15 – 16:00 | Module 18: Controlling Project Performance Across Knowledge Areas

- Controlling scope, schedule, costs, and quality
- Monitoring resources and procurements
- Managing communications during project execution
- Monitoring stakeholder engagement and feedback loops
- Tools: *Risk Register, Change Log, Issue Log*
- **Case Study Exercise:** Review a sample Monitoring & Controlling report and recommend corrective and preventive actions

16:00 – 16:30 | Reflection & Wrap-Up

- Integrating monitoring and controlling into daily project management
- Key lessons learned from Day 3
- Preparing for **Day 4: Closing Process Group**

Day 4: Closing Process Group & Lessons Learned

Morning Session (09:00 – 12:30)

Learning Outcomes

By the end of this session, participants will be able to:

- Explain the purpose and importance of the Closing Process Group.
- Apply the steps for effective project closure, including final deliverable handover, administrative closure, and formal acceptance.
- Develop a comprehensive project closure checklist to ensure all activities are completed.
- Prepare a structured project completion report that captures outcomes, lessons learned, and recommendations for future projects.

Agenda

09:00 – 09:15 | Recap & Introduction

- Review of Day 3 highlights (Resource, Risk, Communications, Monitoring & Controlling)
- Overview of the Closing Process Group and its role in the project life cycle

09:15 – 10:15 | Module 19: Project Closure (Integration Management)

- Key steps for successful closure:
 - Formal acceptance of deliverables
 - Administrative closure & documentation
 - Contract closure and vendor finalization
 - Knowledge transfer and transition to operations
- Tools: *Project Closure Checklist*
- **Workshop Activity:** Create a closure checklist for a recently completed or simulated project

10:15 – 10:30 | Break

10:30 – 11:30 | Module 20: Project Reporting & Lessons Learned

- Writing effective project completion reports
- Capturing lessons learned and best practices
- Conducting a lessons learned session with the team and stakeholders
- Tools: *Final Project Report Template, Lessons Learned Register*
- **Individual Exercise:** Draft an outline of a project completion report based on a chosen project scenario

11:30 – 12:15 | Integrated Case Reflection

- Sharing drafted reports and closure checklists in small groups
- Discussing how closure supports organizational learning and future project success

12:15 – 12:30 | Wrap-Up & Next Steps

- Key takeaways from the **Closing Process Group**
- Overall reflections on Days 1–4 of training
- Guidance for applying learnings to participants' own projects

Day 4: Closing Process Group & Lessons Learned

Afternoon Session (13:30 – 16:30)

Learning Outcomes

By the end of this session, participants will be able to:

- Capture and document lessons learned to strengthen future projects.
- Apply techniques for building a culture of continuous improvement within project teams and organizations.
- Reflect on the overall training program and identify personal and team-specific takeaways.
- Present actionable next steps for applying project management tools and practices in their own projects.

Agenda

13:30 – 14:00 | Module 21: Capturing Lessons Learned

- Purpose and value of lessons learned in project management
- Methods for gathering lessons: workshops, surveys, retrospectives
- Tools: *Lessons Learned Register*
- Examples of effective lessons learned documentation

14:00 – 14:45 | Module 22: Building a Culture of Continuous Improvement

- Embedding feedback loops in projects
- Encouraging transparency and psychological safety in teams
- Linking lessons learned to organizational knowledge management
- **Group Discussion:** How can we foster continuous improvement in our own projects?

14:45 – 15:00 | Break

15:00 – 16:00 | Module 23: Final Review & Group Presentations

- Recap of key project management tools: *Charter, Stakeholder Register, WBS, Budget, Quality Plan, Risk Register, Communication Plan*
- **Group Presentations:** Teams share their project charter, WBS, and selected plans, highlighting key takeaways and next steps for implementation
- Peer feedback and facilitator insights

16:00 – 16:30 | Closing Reflections & Next Steps

- Individual reflection: personal action plan for applying learning in the workplace
- Group sharing of key insights
- Closing remarks and certificate distribution

Scholarship & Discounts

IPD offers support for most needed potential participants in the form of reduced participation fees.

If you wish to request a discounted participation fee amount, please write your request briefly via email before or during the application submission period.

Unfortunately IPD scholarship program does not cover all of the participation fee and international travel expenses.
